

Matt volunteering at the Bridge Home in May 2010

Hello my fellow Chapter members and welcome to the Social Soap Box!

What long term member, active Board member, and past President has recently accepted a position in Kuwait?? That would be Matt Anderson. Matt has been a member of the IFMA San Diego Chapter for more than 15 years! He is a current Board member, responsible for coordinating the monthly Facility Managers Forum which provides a round table format promoting discussions on a number of current and relevant topics for facilities managers. Matt is the Chapter liaison with San Diego City Colleges, the IFMA Foundation, and IFMA International. Throughout the years, Matt has been an integral part of the Chapter Strategic Planning and was also San Diego Chapter President for the 2004-2005 term.

Matt will be the COO for Kuwait United Facility Management (KUFM). He will be responsible for leading the company's effort to increase their position in the international market through strategic alliances and improved business strategies. He will oversee all facility management functions for a large commercial office as well as their retail facilities.

Please join me in wishing Matt a wonderfully successful transition into his new position. His smiling face and willing contributions will truly be missed by all who know him!

Until next month!  
Deb Gutzmer
