

AMERICAN TECHNOLOGIES, INC.

To Whom It May Concern,

In February, 2009, American Technologies, Inc. (ATI) responded to a call for volunteers at one of the San Diego Youth & Community Services facilities – ‘The Bridgman Home’ in Chula Vista. Joined by other contractors and vendors, our intentions were to donate time and/or materials to assist in fixing up the group home.

It was during that initial visit that we detected significant water damage in the kitchen that appeared to have been long-term leakage from the dishwasher, and had resulted in considerable mold growth throughout the cabinetry, walls and flooring. We then assisted the group home in making a claim through their insurance carrier by providing the protocol and repair estimates. The insurance carrier approved the claim, ATI was awarded the contract to perform the mold remediation and subsequent reconstruction, and the group home got a new kitchen!

ATI donated some of its services in the process of the reconstruction, but was also rewarded with a profitable job originating from the initial intent to help with this worthy cause. We look forward to future involvement with the San Diego Youth & Community Services.
